

DokoDemo — Ergo-L Base, Accents & Symbols

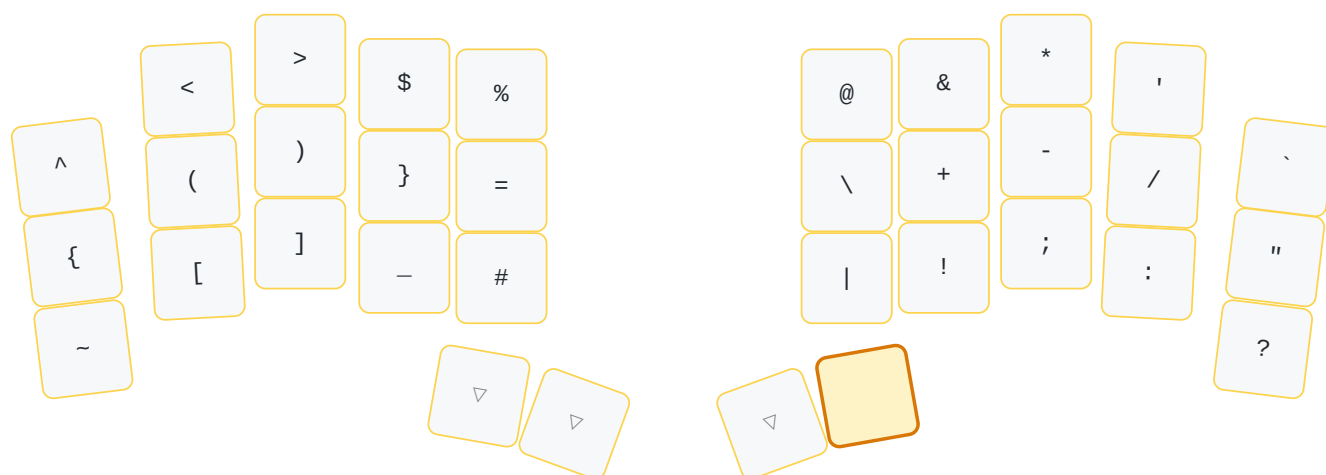

1 / 3

^ Ctrl · ~ Alt · ♦ GUI · ↑ Shift · **purple top = ODK output** · bottom = hold
♦ NavNum · # Symbols · fn Fn · Gaming · both inner thumbs = Fn

Base:

Symbols:

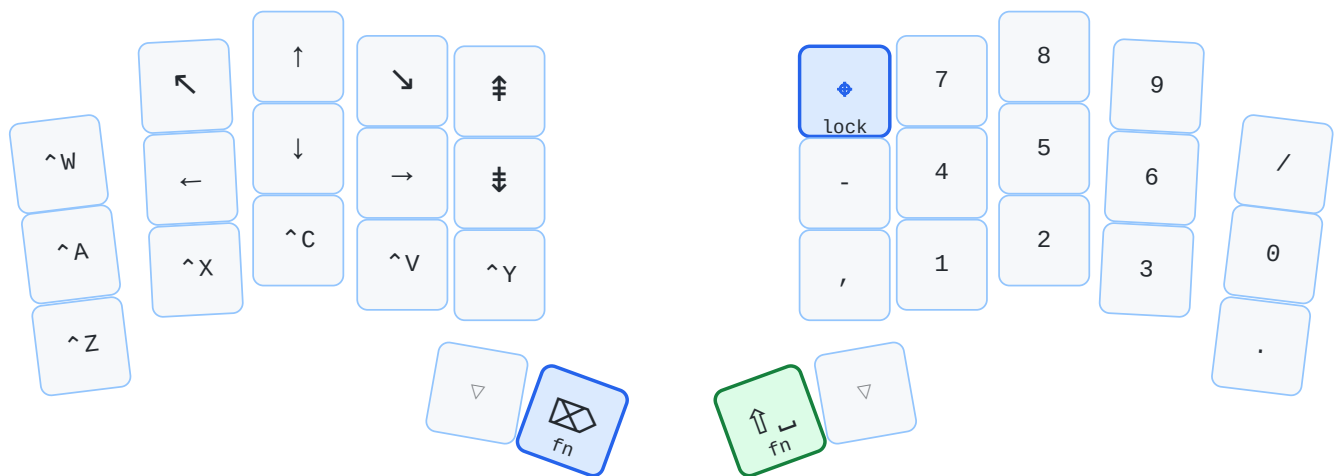

How to read: center = tap and bottom = hold. Colored keys activate the matching layer; purple top legends are One Dead Key outputs. Combos: **X** + - = Escape, **G** + , = Enter, and **Z** + **K** = Caps Word.

DokoDemo — NavNum

2 / 3

^ Ctrl · ⌘ Alt · ⬢ GUI · ⬆ Shift · purple top = ODK output · bottom = hold
 ⬢ NavNum · # Symbols · fn Fn · Gaming · both inner thumbs = Fn

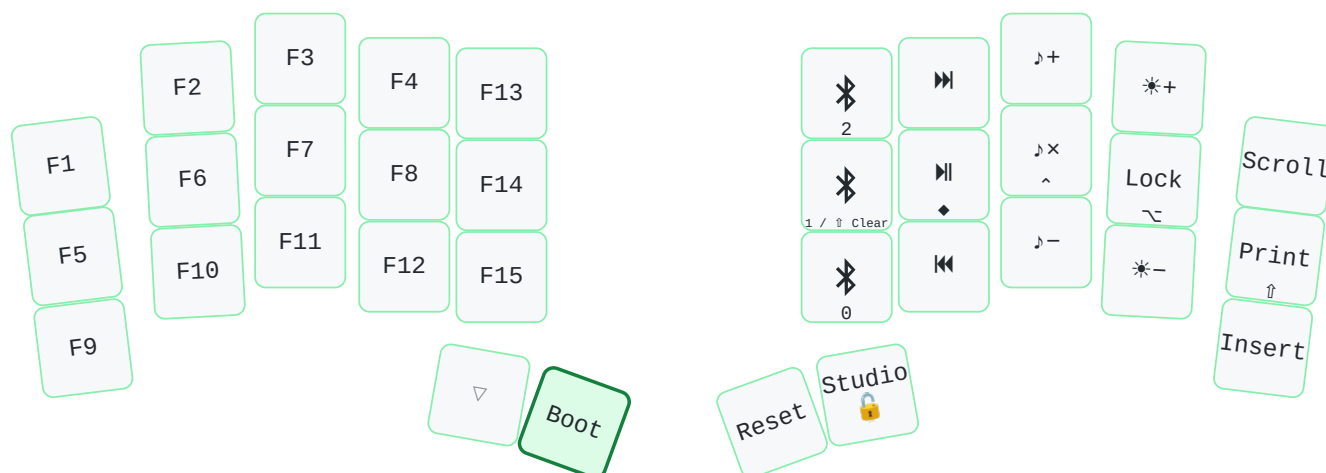

NavNum:

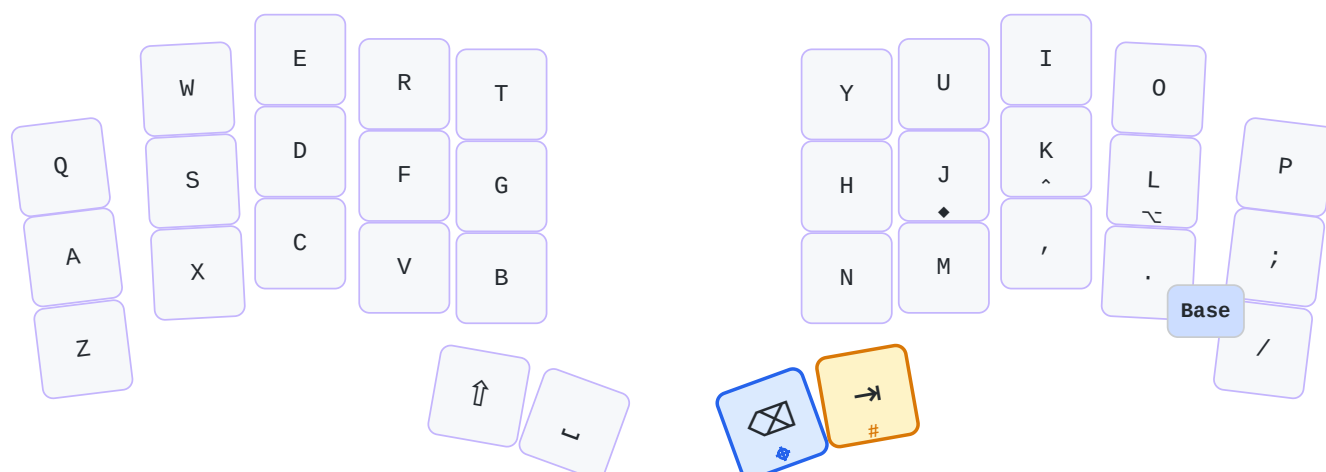

NavNum: navigation and Ctrl shortcuts on the left, numpad on the right. Hold both inner thumbs for Fn. NavNum Lock latches the persistent number layer.

^ Ctrl · ⌘ Alt · ◆ GUI · ⬆ Shift · **purple top = ODK output** · bottom = hold
 ◆ NavNum · # Symbols · fn Fn · **Gaming** · both inner thumbs = Fn

Fn:

Gaming:

Function: Bluetooth profiles, media controls, brightness, volume, firmware actions, and F-keys. Hold the Print Screen key for Shift; Shift plus Bluetooth profile 1 clears the currently selected bond. Gaming uses plain QWERTY on the left; press the **bottom-right combo** (, + K) to enter it and the same physical combo to leave it.
